

# PROTECTOR SCREENS

## Protector 6 x 6

Portable welding frames, protection screens & bespoke booths and curtains

The necessary solution for employee protection.

Our Protector range of portable welding frames have become synonymous for both quality and durability. New to the range are our clear screens which provide segregation in the workplace. As well as our Protector range we also manufacture bespoke PVC welding curtains, welding booths and PVC strip curtains.

The most popular sized screen, this is a lightweight, portable frame that is assembled via a click lock system. Available in green, red, or clear, the high visibility curtain contained within the red and green screens conform to EN1598 welding standards. Eyelets on all 4 sides allow it to be used on other frames.
